Date 5-18-2022

To Whom it may concern,

My name is Rex Hurt I'm currently a inmate at Southern Regional jail in Beckly W.V. (Inmate # 355-7025). I'm housed in C-7 medical Pod. I've been in the jail since Oct-2021. I have a colostomy Bag Due to being shot two times in my Stomach. Since being at the jail I have repeatedly been denied medical attention and my very basic colostomy supplies. It is way past due for me to be able to have surgery to have my colostomy reversed. The jail has repeatedly canceled my dr appointments in Charleston and refuses to have me seen by the specialist my medical condition requires. Since being at the jail my condition has ~~developed~~ developed complications such as severe bleeding from my colostomy site, extreme swelling at the site, pain, and cuts on the colostomy site all due to the fact I have been refused repeatedly the proper medical attention the proper colostomy supplies and not given bags and blocking latches when I'm suppose to have them.

①

I have had to use the same bags for up to two weeks at times placing me under extreme risk of infection also causing me to live under very unsanitary conditions. When I am given supplies I am given a bag and a barrier and that's it. I am not given the supplies to protect my stoma from cuts from the barrier. I have never once been given the barrier wipes and they make me wait so long before I am given a new barrier. I have to tape a shirt and tie the barrier to keep it from falling off. My attorney has repeatedly told the Mercer County courts of these issues and the court sent a order for the jail to take me to my appointment in Charleston. So after 4 months of being at the jail they finally took me one time. The dis wanted me to return for text and to have camera ran into me and made me a appointment to return. Since I had no court order for that. The jail simply canceled. Since then I had one event where my bag

③

filled completely up with blood. They took me to see the nurse at the jail. She told me she had no idea what was causing so much bleeding and simply sent me back to the pod with no medical attention what so ever.

I asked for a new bag and barrier and was told the jail could not help me because they had none and to get my family to get them.

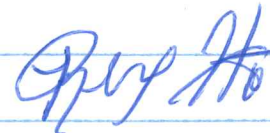

I would like to be added to complaint filed civil action No. 5:22-CV-225.

Respectfully

Submitted
